## Percentage of Your Graduates Passing the NCLEX®

Figure 3.5.A shows how the passing percentage of your graduates compares to prior reporting periods. Figure 3.5.B shows how the passing percentage of your graduates testing for the first time (reported in table 3.3) compares to graduates from (1) your jurisdiction (state/province or territory) and (2) graduates from programs in the United States, the District of Columbia, and the U.S. territories. The bar graph also shows how the passing percentage of your graduates compares to prior reporting periods. The height of the bars reflects the percentage of first-time test-takers in that group who passed the NCLEX®.
