# INTRODUCTION

Program review is the process by which instructional and learning support programs (and combinations thereof) analyze program performance by utilizing quantitative and qualitative data. Program review includes the use of these reflective conclusions to formulate plans to sustain or improve the programs, to advance the mission of the district, and to support institutional goals and institutional objectives. Improving student learning and achievement is central to the analysis of program effectiveness for instructional disciplines and student services programs.

The program review process is, by Administrative Policy 4020, within the purview of the Program Review Committee with links to resource allocation through collaboration with the Budget and Planning Committee and the maintenance of standards in collaboration with the Academic Senate. Program Review Committee membership includes faculty, classified staff, students, managers, administrators, the institutional researcher, and the coordinator of student learning outcomes.

# TIMELINE AND PROCESS FOR PROGRAM REVIEW

<b>AUGUST</b>	All programs scheduled for program review in the current academic year receive associated data.
<b>SEPTEMBER/ OCTOBER</b>	<ul style="list-style-type: none"> <li>• The program review author drafts the program review, which includes:               <ul style="list-style-type: none"> <li>○ Analysis of the data to identify strengths and weaknesses by comparing performance to standards.</li> <li>○ Identification of links to the district mission statement, institutional goals, and objectives.</li> <li>○ Plans to address identified weaknesses, advance the mission, support institutional goals objectives, and if applicable, improve student learning and achievement.</li> </ul> </li> <li>• The draft program review document is shared with other members of the program or unit and discussed widely. The author reviews the feedback and revisions are incorporated as warranted.</li> </ul>
<b>OCTOBER/ NOVEMBER</b>	The Division chair or unit supervisor considers the program review draft and collaborates with the program review author to revise the program review if warranted. A final version of the program review is submitted to the Program Review Committee.
<b>DECEMBER</b>	Program reviews are forwarded to the Program Review Committee to develop a recommendation for final validation, and subsequently submitted to the College Council for review and comment.
<b>JANUARY</b>	Subsequent to being reviewed by College Council, program reviews are forwarded to the superintendent/president who forwards them to the Board of Trustees for approval.

## GUIDE FOR COMPLETING SLO SECTION

### FOR CTE FULL REVIEW AND FULL REVIEW TEMPLATES

#### SLO Quantitative Data

1. Copy and paste the program learning outcome (PLO) from the catalog into the table.
2. List all courses within that program that (a) were taught during the reporting period and, (b) map to the PLO into the table.
3. Collect all 'Program Level CLO Data Worksheets' for courses listed in the table and average all the course learning outcome results so that you have one (1) percentage for each course, for each year taught. Enter those percentages into the table.
4. Once all the course data is entered, find a total average percentage per table per year.
5. Once all the tables have been completed for a degree or certificate, complete the 'Average Percentage for all Program Learning Outcomes' table. Simply copy and paste the final percentage from the last row of each table into the appropriate row of this final table. Then average PLO #1 & PLO #2 (and so on, for each PLO), per year.
6. There is to be one table per PLO, per degree or certificate. In the event of multiple certificates and/or degrees for a program, there will need to be a set of PLO tables for each one.

#### SLO Action Plans

1. Once again, you will need to refer to all 'Program Level CLO Data Worksheets' associated with the courses for the degrees and certificates within this program. Look at the ANALYSIS section. Record issues identified in the 'Identified Gap' column – one issue per line. List all the Course IDs that are struggling with this same issue in the 'Course IDs Affected' column of that same row.
2. Then in the 'Action Plan' column, write down what was done to mitigate the issue or what *should* be done to mitigate the issue. This should be ready to copy and paste from the last question of the 'Program Level CLO Data Worksheet'.
3. Think about what resources were used (time, money, etc.) and write those down. Be as specific as possible. If resources are still needed, write those down.
4. In the Outcome column, write what happened. Did things get better, worse? Was there any change at all?
5. Finally, write down the academic year problem-solving on this issue began. Or if there hasn't been any problem solving yet, write the year the issue was found.

## FOR LEARNING SUPPORT FULL REVIEW TEMPLATE

### SLO Quantitative Data

1. In the table “Success Rate for Student Learning Outcomes,” write out each Student Learning Outcome in its own row. There is to be one “Success Rate” table and subsequent set of Methodology tables per program. In the event of multiple programs within a single program review, there will need to be a separate set these tables for each one.
2. Collect all ‘Learning Support SLO Data Worksheets’ for SLOs listed in the table for the reporting timeframe and average all the student learning outcome results so that you have one (1) percentage for each SLO, for each year. Enter those percentages into the table.
3. Once all the SLO data are entered, find a total average percentage per table per year on the final row of the table.
4. Then, complete a Methodology table for each year reported. For each SLO, report the method used to assess the SLO. Was it a pre/post test? Was it a project? Be as specific as possible.
5. In the column labeled “Baseline for Success,” report what constitutes success. Was it completion of a task specific task? Was it a specific percentage on a post-test?
6. Next, report the number of students who met or exceeded the Baseline for Success.
7. Finally, report the total number of students assessed.

### SLO Action Plans

1. Once again, you will need to refer to all ‘Learning Support SLO Data Worksheets’ associated with this program. Look at the ANALYSIS section. Record issues identified in the ‘Identified Gap’ column – one issue per line. List all the SLOs that are struggling with this same issue in the ‘SLOs Affected’ column of that same row.
2. Then in the ‘Action Plan’ column, write down what was done to mitigate the issue or what *should* be done to mitigate the issue. This should be ready to copy and paste from the last question of the ‘Learning Support SLO Data Worksheets.’
3. Think about what resources were used (time, money, etc.) and write those down. Be as specific as possible. If resources are still needed, write those down.
4. In the Outcome column, write what happened. Did things get better, worse? Was there any change at all?
5. Finally, write down the academic year problem-solving on this issue began. Or if there hasn’t been any problem solving yet, write the year the issue was found.
