

**Institutional Planning**

Reference: Accreditation Standard I.B; Title 5, Sections 51008, 51010, 51027, 53003, 54220, 55250, 55400 et seq., 55510, 56270 et seq.

The District will review and recommend planning decisions through established committees with representation from faculty, administration, staff, and students. Those representatives make up the College Council/Strategic Planning and Steering Committee. Applying the criteria of Accreditation Standards I and III, the planning process will be guided by the District's mission, vision and value statements. Specific goals, objectives and strategies with measurable outcomes and specific accountability will be developed. Action plans will be reviewed and revised annually and approved through the collegial governance process.

Institutional effectiveness research, program reviews and departmental plans are utilized in the planning process to complement and inform the resource allocation.

The Board assists in developing the general institutional mission and goals for the comprehensive plans in various ways, including but not limited to, reviewing the District's action plans, curriculum items, and information items submitted for approval.
