

# Agricultural Crop Science, COP

Agricultural Crop Sciences encompasses the study of plant, soil, and water resources that are foundational to all agroecosystems. The crop sciences field can prepare you for a challenging career in many areas including soil and crop management, plant breeding and genetics, seed science, environmental soil science and conservation, international agriculture, and ecosystem management.

## Requirements: 11 Units

Course	Title	Units
AGR080	Pesticide Safety	1
AGR120	Soil Science	3
AGR140	Principles of Plant Science	4
AGR170	Principles of Entomology	3

**Total Required Units: 11**
