Proposal Details

Proposal Start:	2020-21 Summer (2021SU)
What changes have been made to the program:	No value
Program Justification:	Currently Palo Verde College only offers a Hazardous Material, Haz Mat, Degree requiring 60 units. Haz Mat is only one of several areas within the fire service. Having an education is Haz Mat is definitely beneficial for the fire service, but does not cover all areas of the fire service required for a well-rounded fire fighter or company officer. As a Fire Chief I cannot hire an individual with just Haz Mat training as that would be a disservice to the people of the community we serve. The requirements within this Fire Science Company Officer Certificate program will not only meet, but exceed the expectations needed to develop an individual to be successful as a Company Officer in the fire service. The addition of the Fire Science Company Officer will allow students to achieve a Fire Science Company Officer Certificate as well. The hope is the student will continue their education and achieve an AS.

Narrative Item 4. Master Planning (Not needed for Certificates of Career Preparation)

This Fire Company Officer Certificate of Education provides opportunities for personal and professional growth to a diverse community of students in an academic environment committed to student success. The award of a Fire Science Company Officer Certificate is more than an accumulation of units. It symbolizes a successful attempt on the part of the college to lead students through patterns of learning experiences designed to develop certain capabilities and insights in the fire service world and more specifically, being a Company Officer.

Narrative Item 5. Enrollment and Completer Projections (Not needed for Certificates of Career Preparation)

40 -80 students annually.

Narrative Item 6. Place of Program in Curriculum/Similar Programs (Not needed for Certificates of Career Preparation)

Currently all of the required curriculum for this Fire Science Company Officer Certificate resides in the course catalog. After properly organizing and categorizing the material, students may now receive recognition through a certificate of achievement that will help them meet criteria for hiring, as well as, promotional opportunities.

Narrative Item 7. Similar Programs at Other Colleges in Service Area (Not needed for Certificates of Career Preparation)

There are no other colleges teaching the curriculum in the area; however State Fire Training offers certifications for the attached classes. Please see attached: State Fire Training Algorithm
