

Alcohol and Drug Studies, COA

The Alcohol & Drug Studies Program (ADS) offers a Certificate of Achievement and two Career Preparation Certificates. These provide the student with academic and practical skills for entry-level employment in alcohol and drug treatment programs, training in alcohol and drug abuse counseling for employment with human services organizations and training for professionals who wish to expand their knowledge and skills. The goals are to develop basic competencies in counseling, case management, record keeping, treatment planning, pharmacology and physiology of substance abuse dependency, and social services systems. The Certificate of Achievement in Alcohol and Drug Studies is approved by the California Association of Alcohol and Drug Educators (C.A.A.D.E.), and qualifies the recipient to take the Certified Addictions Treatment Counselors (CATC) examination as part of California licensure requirements.
