

# Automotive Technology, COA

The Automotive Technology program provides for entry level skills in the automotive field. The program is designed to impart in-depth technical skills as required in today's highly technical automotive field. Preparation for employment in the automotive and/or transportation trades, with upgrading and specialization skills for those currently employed will be stressed. Emphasizes practical experience in the actual repairs under simulated shop conditions. Each course will focus on the theory of automotive technologies as they relate to various aspects of the modern automotive industry.
